Your Certification ID: 220-161-491

If you do not already have one, please create a personal Red Hat login on redhat.com and then map your Certification ID to your login. You must map your Certification ID to a redhat.com login in order for your certification to appear on the verify page of Red Hat Certification Central and to redeem any benefits provided to Red Hat Certified Professionals. Once you have mapped your ID and login, you should be able to verify your Red Hat certification here:

https://rhtapps.redhat.com/verify?certId=220-161-491

You may provide your Red Hat Certification ID to others so that they, too, can verify your certification status and your record of successful exam completions. No other personal information is shared.

You can access a digital certificate and badge from Credly. To do so, authorize Red Hat to send your certification information to Credly by opting in within your certification profile on redhat.com. You will receive an email from Credly within 24-48 hours with instructions on how to access your digital credentials.

Show the world you are skilled, proven and ready. Please visit the Red Hat Certified Professional Store at http://redhat.brandfuel.com to purchase logo merchandise available only to Red Hat Certified Professionals.

Congratulations again on your achievement.

Sincerely yours,
The Red Hat Certification team
